SUMMARY

React developer with 3+ years building Shopify-native commerce apps — drag-and-drop page builders, upsell tools, automated SEO, and no-code product customizers. Strong in React.js, Next.js, TypeScript, and Shopify Polaris, with a focus on responsive, conversion-driven interfaces.

SKILLS

Frontend: React.js, Next.js, JavaScript, TypeScript, HTML, CSS

Libraries: Shopify Polaris, Tailwind CSS, Material-UI, Bootstrap

Tools & APIs: REST APIs, GraphQL, Git, Figma

EXPERIENCE

React JS Developer | AD Digitech, Surat

Jan 2024 – Jul 2026

- Built for Shopify apps with React, TypeScript, and Polaris across product options, discounts, landing pages, analytics.
- Developed drag-and-drop editors for mobile menus, bottom navigation bars, and post-purchase Thank You pages — no coding required for merchants.
- Built upsell and cross-sell features with product bundles, personalized recommendations, and countdown-timer coupon codes.
- Created a no-code product customizer with 7+ option types, real-time live preview, conditional logic, and dynamic pricing synced across cart and checkout.
- Delivered an automated blog generated SEO tool covering keyword analysis, site audits, and performance tracking
- Developed reusable UI components and integrated REST and GraphQL APIs.

React JS Developer | Identixweb Pvt Ltd, Surat

Oct 2022 – Aug 2023

- Built a Shopify shipping-rates app with zip/postal-code zones, multicurrency support, and price-, weight-, and cart-total-based rules.
- Enabled unlimited shipping zones with analytics on order-receiving regions.

React JS Developer | Infinity Softech, Surat

Mar 2022 – Sep 2022

- Converted Figma, and Photoshop designs into responsive HTML, CSS, and JavaScript websites.

PROJECTS

Product Grid | React, TypeScript

product-grid-table.vercel.app

- Virtualized data grid that renders only the visible window with a two-row buffer, keeping large datasets smooth.
- Edit state keyed by product ID to survive DOM recycling; query results cached by sort, filter, and pagination parameters.

CollegeHub | TanStack Start, React 19

college-management-beryl.vercel.app

- Full-stack college management system with modules for students, faculty, courses, attendance, fees, and exams.
- TanStack Router and Query v5 for type-safe routing and server state; React Hook Form with Zod validation and Recharts dashboards.

EDUCATION

Bachelor of Science | P L Chachun Science College, Surat

2019 – 2022
